HOW I TRAINED FOR 365 DAYS

THE BODYBUILDING TRANSFORMATION SYSTEM

JEFF NIPPARD

IMPORTANT PROGRAM NOTES

READ BEFORE STARTING

Perform a full general warm-up and exercise-specific warm-up every workout as outlined below (should only take 5-10 mins max)

Note that for the first week of the program, most sets are taken to an RPE of ~6-7. This means you will be leaving 3-4 reps in the tank on most exercises. This only lasts for the first week (to serve as a deload/intro week). After the first week, the intensity will increase and you'll start taking most sets to ~2-3 reps shy of failure.

All working sets are broken up into Early Sets and Last Sets. The Early Sets are all the sets that come before your Last Set. Usually the Early Sets should be a little bit easier than the later sets (slightly lower RPE) whereas the Last Set is pushed closer to failure. In the first two weeks of the program, there will only be one working set for each exercise, so there is only a Last Set RPE. See the Bodybuilding Transformation System Guidebook for a full explanation of RPE.

Each exercise has a clickable link which demonstrates how to perform the exercise. I suggest watching each exercise demo before starting the workout.

All other aspects of the program, including when to make an exercise substitution and how to progress through the rep ranges given is explained in the Bodybuilding Transformation System Guidebook. Give it a full read before starting your first workout! Let's crush it!!

WARM UP PROTOCOL	
General Warm-Up	
Perform the following general warm-up before every workout (5-10 mins max)	
5-10 minutes	Light cardio on machine on your choice of machine (treadmill, stairmaster, elliptical, bike, etc.)
10 reps per side	Arm Swings
10 reps per side	Arm Circles
10 reps per side	Front-to-Back Leg Swings
10 reps per side	Side-to-Side Leg Swings
15 reps per side	Cable External Rotation (optional)

Exercise-Specific Warm-Up	
Perform the following exercise-specific warm-up according to the number of warm-up sets listed in the program	
1 Warm-Up Set Listed	Use ~60% of your planned working weight for ~6-10 reps (or until you feel warm and loose)
2 Warm-Up Sets Listed	Perform a mini warm-up pyramid: Warm-Up Set #1 = ~50% of planned working weight for ~6-10 reps Warm-Up Set #2 = ~70% of planned working weight for 4-6 reps
3 Warm-Up Sets Listed	Perform a full warm-up pyramid: Warm-Up Set #1 = ~45% of planned working weight for ~6-10 reps Warm-Up Set #2 = ~65% of planned working weight for 4-6 reps Warm-Up Set #3 = ~85% of planned working weight for 3-4 reps
4 Warm-Up Sets Listed	Perform a full warm-up pyramid: Warm-Up Set #1 = ~45% of planned working weight for ~6-10 reps Warm-Up Set #2 = ~60% of planned working weight for 4-6 reps Warm-Up Set #3 = ~75% of planned working weight for 3-5 reps Warm-Up Set #4 = ~85% of planned working weight for 2-4 reps

FOUNDATION BLOCK

Note: Volume may feel low and your workouts may be fast in Weeks 1 and 2 -- that's okay! Work on mastering your technique!

WEEK 1	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
UPPER (STRENGTH FOCUS)	45° Incline Barbell Press	N/A	2-3	1	6-8					N/A	~6	3-5 min	45° Incline DB Press	45° Incline Machine Press	1 second pause at the bottom of each rep while maintaining tension on the pecs
	Cable Crossover Ladder	N/A	1-2	1	8-10					N/A	~7	1-2 min	Pec Deck	Bottom-Half DB Flye	Do one set with low cable position, one set with medium-height cable position, and one height with a high cable position. If you only have one or two sets, choose the one or two cable positions you prefer.
	Wide-Grip Pull-Up	N/A	1-2	1	8-10					N/A	~6	2-3 min	Wide-Grip Lat Pulldown	Dual-Handle Lat Pulldown	1.5x shoulder width overhand grip. Slow 2-3 second negative. Feel your lats pulling apart on the way down.
	High-Cable Lateral Raise	N/A	1-2	1	8-10					N/A	~6	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	Pendlay Deficit Row	N/A	1-2	1	6-8					N/A	~6	2-3 min	Smith Machine Row	Single-Arm DB Row	Stand on a bumper plate. Focus on getting a big stretch and touch your stomach/chest on each rep!
	Overhead Cable Triceps Extension (Bar)	N/A	1	1	8-10					N/A	~7	1-2 min	Overhead Cable Triceps Extension (Rope)	DB Skull Crusher	Optionally pause for 0.5-1 second in the stretched aspect of each rep
	Bayesian Cable Curl	N/A	1	1	8-10					N/A	~7	1-2 min	Seated Super-Bayesian High Cable Curl	Incline DB Stretch Curl	If you have a left-right bicep size imbalance, do these 1 arm at a time, starting with the weaker arm. Take the weaker arm to the listed RPE. Then match the reps with the other arm (stop once you've matched the reps, even if the RPE is lower). If you don't have a size imbalance, do these both arms at the same time.

WEEK 1	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LOWER (STRENGTH FOCUS)	Lying Leg Curl	N/A	2	1	8-10					N/A	~7	1-2 min	Seated Leg Curl	Nordic Ham Curl	Set the machine so that you get the biggest stretch possible at the bottom. Prevent your butt from popping up as you curl.
	Smith Machine Squat	N/A	2-4	1	6-8					N/A	~6	3-5 min	DB Bulgarian Split Squat	High-Bar Back Squat	Once you are under the bar, set up your feet as you would a normal squat and then bring them forward ~3-6 inches. This will cause you to lean back into the bar slightly, allowing for a more upright squat, while also placing more tension on the quads. If your heels are raising at the bottom, you may need to bring your feet more forward. If your feet feel like they are slipping or your lower back is rounding at the bottom, try bringing your feet back a bit.
	Barbell RDL	N/A	2-4	1	6-8					N/A	~6	2-3 min	DB RDL	Snatch-Grip RDL	To keep tension on the hamstrings, stop about 75% of the way to full lockout on each rep (i.e. stay in the bottom 3/4 of the range of motion).
	Leg Extension	N/A	1-2	1	8-10					N/A	~7	1-2 min	Reverse Nordic	Sissy Squat	Set the seat back as far as it will go while still feeling comfortable. Grab the handles as hard as you can to pull your butt down into the seat. Use a 2-3 second negative. Feel your quads pulling apart on the negative.
	Standing Calf Raise	N/A	1-2	1	6-8					N/A	~7	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
	Cable Crunch	N/A	1	1	8-10					N/A	~7	1-2 min	Decline Weighted Crunch	Machine Crunch	Round your lower back as you crunch. Maintain a mind-muscle connection with your 6-pack.
REST DAY															

WEEK 1	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LOWER (STRENGTH FOCUS)	Neutral-Grip Lat Pulldown	N/A	2-3	1	8-10					N/A	~6	2-3 min	Neutral-Grip Pull-Up	Dual-Handle Lat Pulldown	Do these pulldowns with the handle more out in front of you, more like a cross between pullover and a pulldown. Focus on feeling your lats working more than the weight you're using.
	Chest-Supported Machine Row	N/A	2-3	1	8-10					N/A	~6	2-3 min	Chest-Supported T-Bar Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	N/A	1-2	1	10-12					N/A	~7	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Machine Shrug	N/A	2-3	1	10-12					N/A	~6	1-2 min	Cable Paused Shrug-In	DB Shrug	Brief pause at the top of the bottom of ROM. Think about pulling your shoulders up to your ears!
	EZ-Bar Cable Curl	N/A	1	1	10-12					N/A	~7	1-2 min	EZ-Bar Curl	DB Curl	Set up the cable at the lowest position. Maintain constant tension on the biceps. Slow, controlled reps!
	Machine Preacher Curl	N/A	1	1	12-15					N/A	~7	1-2 min	EZ-Bar Preacher Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 1	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PUSH (HYPERTROPHY FOCUS)	Barbell Bench Press	N/A	2-4	1	8-10					N/A	~6	3-5 min	Machine Chest Press	DB Bench Press	Set up a comfortable arch, quick pause on the chest and explode up on each rep.
	Machine Shoulder Press	N/A	2-3	1	8-10					N/A	~6	2-3 min	Cable Shoulder Press	Seated DB Shoulder Press	Ensure that your elbows break at least 90°. Mind-muscle connection with your delts. Smooth, controlled reps.
	Bottom-Half DB Flye	N/A	1-2	1	10-12					N/A	~7	1-2 min	Bottom-Half Seated Cable Flye	Low-to-High Cable Crossover	All reps and sets are to be performed in the bottom half of the ROM. Focus on feeling a deep stretch in your pecs at the bottom of each rep.
	High-Cable Lateral Raise	N/A	1	1	10-12					N/A	~7	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	Overhead Cable Triceps Extension (Bar)	N/A	1	1	10-12					N/A	~7	1-2 min	Overhead Cable Triceps Extension (Rope)	DB Skull Crusher	Optionally pause for 0.5-1 second in the stretched aspect of each rep
	Cable Triceps Kickback	N/A	1	1	12-15					N/A	~7	1-2 min	DB Triceps Kickback	Bench Dip	There are two ways you can do this: upright or bent over. Choose the one that feels more comfortable for you. The main thing is that when you're in the full squeeze, your shoulder should be positioned back behind your torso.
	Lying Leg Raise	N/A	1-2	1	10-20					N/A	~7	1-2 min	Hanging Leg Raise	Modified Candlestick	Perform these slowly, focus on keeping your lower back against the ground throughout the set

WEEK 1	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LEGS (HYPERTROPHY FOCUS)	Leg Press	N/A	2-4	1	8-10					N/A	~6	2-3 min	Smith Machine Static Lunge	DB Walking Lunge	Feet lower on the platform for more quad focus. Get as deep as you can without excessive back rounding. Control the negative and do a slight pause at the bottom of each rep.
	Seated Leg Curl	N/A	1-2	1	10-12					N/A	~7	1-2 min	Lying Leg Curl	Nordic Ham Curl	Lean forward over the machine to get a maximum stretch in your hamstrings.
	Walking Lunge	N/A	2-3	1	8-10					N/A	~6	2-3 min	DB Step-Up	Goblet Squat	Take medium strides. Minimize contribution from the back leg.
	Machine Hip Abduction	N/A	1-2	1	10-12					N/A	~7	1-2 min	Cable Hip Abduction	Lateral Band Walk	If possible, use pads to increase the range of motion on the machine. Lean forward and grab onto the machine rails to stretch the glutes further.
	Standing Calf Raise	N/A	1-2	1	10-12					N/A	~7	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.

Focus on feeling your lats working more than the weight you're using.
	Chest-Supported Machine Row	N/A	2-3	2	8-10					~7	~7	2-3 min	Chest-Supported T-Bar Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	N/A	1-2	2	10-12					~7	~8	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Machine Shrug	N/A	2-3	2	10-12					~7	~7	1-2 min	Cable Paused Shrug-In	DB Shrug	Brief pause at the top of the bottom of ROM. Think about pulling your shoulders up to your ears!
	EZ-Bar Cable Curl	N/A	1	2	10-12					~7	~8	1-2 min	EZ-Bar Curl	DB Curl	Set up the cable at the lowest position. Maintain constant tension on the biceps. Slow, controlled reps!
	Machine Preacher Curl	N/A	1	2	12-15					~7	~8	1-2 min	EZ-Bar Preacher Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 3	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PUSH (HYPERTROPHY FOCUS)	Barbell Bench Press	N/A	2-4	2	8-10					~7	~7	3-5 min	Machine Chest Press	DB Bench Press	Set up a comfortable arch, quick pause on the chest and explode up on each rep.
	Machine Shoulder Press	N/A	2-3	2	8-10					~7	~7	2-3 min	Cable Shoulder Press	Seated DB Shoulder Press	Ensure that your elbows break at least 90°. Mind-muscle connection with your delts. Smooth, controlled reps.
	Bottom-Half DB Flye	N/A	1-2	2	10-12					~7	~8	1-2 min	Bottom-Half Seated Cable Flye	Low-to-High Cable Crossover	All reps and sets are to be performed in the bottom half of the ROM. Focus on feeling a deep stretch in your pecs at the bottom of each rep.
	High-Cable Lateral Raise	N/A	1	2	10-12					~7	~8	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	Overhead Cable Triceps Extension (Bar)	N/A	1	2	10-12					~7	~8	1-2 min	Overhead Cable Triceps Extension (Rope)	DB Skull Crusher	Optionally pause for 0.5-1 second in the stretched aspect of each rep.
	Cable Triceps Kickback	N/A	1	2	12-15					~7	~8	1-2 min	DB Triceps Kickback	Bench Dip	There are two ways you can do this: upright or bent over. Choose the one that feels more comfortable for you. The main thing is that when you're in the full squeeze, your shoulder should be positioned back behind your torso.
	Lying Leg Raise	N/A	1-2	2	10-20					~7	~8	1-2 min	Hanging Leg Raise	Modified Candlestick	Perform these slowly, focus on keeping your lower back against the ground throughout the set.

WEEK 3	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LEGS (HYPERTROPHY FOCUS)	Leg Press	N/A	2-4	2	8-10					~7	~7	2-3 min	Smith Machine Static Lunge	DB Walking Lunge	Feet lower on the platform for more quad focus. Get as deep as you can without excessive back rounding. Control the negative and do a slight pause at the bottom of each rep.
	Seated Leg Curl	N/A	1-2	2	10-12					~7	~8	1-2 min	Lying Leg Curl	Nordic Ham Curl	Lean forward over the machine to get a maximum stretch in your hamstrings.
	Walking Lunge	N/A	2-3	2	8-10					~7	~7	2-3 min	DB Step-Up	Goblet Squat	Take medium strides. Minimize contribution from the back leg.
	Machine Hip Abduction	N/A	1-2	2	10-12					~7	~8	1-2 min	Cable Hip Abduction	Lateral Band Walk	If possible, use pads to increase the range of motion on the machine. Lean forward and grab onto the machine rails to stretch the glutes further.
	Standing Calf Raise	N/A	1-2	2	10-12					~7	~8	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
REST DAY															

WEEK 4	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
UPPER (STRENGTH FOCUS)	45° Incline Barbell Press	N/A	2-3	2	6-8					~7	~7	3-5 min	45° Incline DB Press	45° Incline Machine Press	1 second pause at the bottom of each rep while maintaining tension on the pecs.
	Cable Crossover Ladder	N/A	1-2	2	8-10					~7	~8	1-2 min	Pec Deck	Bottom-Half DB Flye	Do one set with low cable position, one set with medium-height cable position, and one height with a high cable position. If you only have one or two sets, choose the one or two cable positions you prefer.
	Wide-Grip Pull-Up	N/A	1-2	2	8-10					~7	~7	2-3 min	Wide-Grip Lat Pulldown	Dual-Handle Lat Pulldown	1.5x shoulder width overhand grip. Slow 2-3 second negative. Feel your lats pulling apart on the way down.
	High-Cable Lateral Raise	N/A	1-2	2	8-10					~7	~8	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	Pendlay Deficit Row	N/A	1-2	2	6-8					~7	~7	2-3 min	Smith Machine Row	Single-Arm DB Row	Stand on a bumper plate. Focus on getting a big stretch and touch your stomach/chest on each rep!
	Overhead Cable Triceps Extension (Bar)	N/A	1	2	8-10					~7	~8	1-2 min	Overhead Cable Triceps Extension (Rope)	DB Skull Crusher	Optionally pause for 0.5-1 second in the stretched aspect of each rep
	Bayesian Cable Curl	N/A	1	2	8-10					~7	~8	1-2 min	Seated Super-Bayesian High Cable Curl	Incline DB Stretch Curl	If you have a left-right bicep size imbalance, do these 1 arm at a time, starting with the weaker arm. Take the weaker arm to the listed RPE. Then match the reps with the other arm (stop once you've matched the reps, even if the RPE is lower). If you don't have a size imbalance, do these both arms at the same time.

WEEK 4	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LOWER (STRENGTH FOCUS)	Lying Leg Curl	N/A	2	2	8-10					~7	~8	1-2 min	Seated Leg Curl	Nordic Ham Curl	Set the machine so that you get the biggest stretch possible at the bottom. Prevent your butt from popping up as you curl.
	Smith Machine Squat	N/A	2-4	2	6-8					~7	~7	3-5 min	DB Bulgarian Split Squat	High-Bar Back Squat	Once you are under the bar, set up your feet as you would a normal squat and then bring them forward ~3-6 inches. This will cause you to lean back into the bar slightly, allowing for a more upright squat, while also placing more tension on the quads. If your heels are raising at the bottom, you may need to bring your feet more forward. If your feet feel like they are slipping or your lower back is rounding at the bottom, try bringing your feet back a bit.
	Barbell RDL	N/A	2-4	2	6-8					~7	~7	2-3 min	DB RDL	Snatch-Grip RDL	To keep tension on the hamstrings, stop about 75% of the way to full lockout on each rep (i.e. stay in the bottom 3/4 of the range of motion).
	Leg Extension	N/A	1-2	2	8-10					~7	~8	1-2 min	Reverse Nordic	Sissy Squat	Set the seat back as far as it will go while still feeling comfortable. Grab the handles as hard as you can to pull your butt down into the seat. Use a 2-3 second negative. Feel your quads pulling apart on the negative.
	Standing Calf Raise	N/A	1-2	2	6-8					~7	~8	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
	Cable Crunch	N/A	1	2	8-10					~7	~8	1-2 min	Decline Weighted Crunch	Machine Crunch	Round your lower back as you crunch. Maintain a mind-muscle connection with your 6-pack.
REST DAY															

WEEK 4	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PULL (HYPERTROPHY FOCUS)	Neutral-Grip Lat Pulldown	N/A	2-3	2	8-10					~7	~7	2-3 min	Neutral-Grip Pull-Up	Dual-Handle Lat Pulldown	Do these pulldowns with the handle more out in front of you, more like a cross between pullover and a pulldown. Focus on feeling your lats working more than the weight you're using.
	Chest-Supported Machine Row	N/A	2-3	2	8-10					~7	~7	2-3 min	Chest-Supported T-Bar Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	N/A	1-2	2	10-12					~7	~8	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Machine Shrug	N/A	2-3	2	10-12					~7	~7	1-2 min	Cable Paused Shrug-In	DB Shrug	Brief pause at the top of the bottom of ROM. Think about pulling your shoulders up to your ears!
	EZ-Bar Cable Curl	N/A	1	2	10-12					~7	~8	1-2 min	EZ-Bar Curl	DB Curl	Set up the cable at the lowest position. Maintain constant tension on the biceps. Slow, controlled reps!
	Machine Preacher Curl	N/A	1	2	12-15					~7	~8	1-2 min	EZ-Bar Preacher Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 6	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PULL (HYPERTROPHY FOCUS)	Lean-Back Lat Pulldown	N/A	2-3	1	10-12					N/A	~6	2-3 min	Lean-Back Machine Pulldown	Pull-Up	Initiate the pulldown with a straight up posture. As you pull the bar down, lean back by about 15-30° to get the mid-back more involved. Softly touch the bar to your chest on every rep and, even though you're leaning back, still control the weight!
	Chest-Supported T-Bar Row	N/A	2-3	1	10-12					N/A	~6	2-3 min	Chest-Supported Machine Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	N/A	1-2	1	12-15					N/A	~7	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Cable Paused Shrug-In	N/A	2-3	1	12-15					N/A	~6	1-2 min	Machine Shrug	DB Shrug	Shrug up and in. Think about shrugging "up to your ears." 1-2 second pause in the squeeze (at the top) of each rep, then another 1-2 second pause in the stretch (at the bottom) of each rep.
	Cable Rope Hammer Curl	N/A	1	1	12-15					N/A	~7	1-2 min	DB Hammer Curl	Hammer Preacher Curl	Squeeze the rope hard as you curl the weight up. Smooth, controlled reps.
	DB Concentration Curl	N/A	1	1	15-20					N/A	~7	1-2 min	Concentration Cable Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 6	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PUSH (HYPERTROPHY FOCUS)	Machine Chest Press	N/A	2-4	1	10-12					N/A	~6	3-5 min	Barbell Bench Press	DB Bench Press	1 second pause at the bottom of each rep while maintaining tension on the pecs.
	Seated DB Shoulder Press	N/A	2-3	1	10-12					N/A	~6	2-3 min	Cable Shoulder Press	Machine Shoulder Press	Ensure that your elbows break at least 90°. Mind-muscle connection with your delts. Smooth, controlled reps.
	Bottom-Half Seated Cable Flye	N/A	1-2	1	12-15					N/A	~7	1-2 min	Bottom-Half DB Flye	Low-to-High Cable Crossover	All reps and sets are to be performed in the bottom half of the ROM. Focus on feeling a deep stretch in your pecs at the bottom of each rep.
	High-Cable Lateral Raise	N/A	1	1	12-15					N/A	~7	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	EZ-Bar Skull Crusher	N/A	1	1	12-15					N/A	~7	1-2 min	DB Skull Crusher	Katana Triceps Extension	Optionally pause for 0.5-1 second in the stretched aspect of each rep.
	Triceps Pressdown (Bar)	N/A	1	1	15-20					N/A	~7	1-2 min	Triceps Pressdown (Rope)	DB Triceps Kickback	Focus on squeezing your triceps to move the weight.
	Ab Wheel Rollout	N/A	1-2	1	12-15					N/A	~7	1-2 min	Swiss Ball Rollout	Long-Lever Plank	Don't just bend at your hips, use your abs to lower yourself down under control and pull yourself back up. If you don't have the core strength to get all the way extended at the bottom, try to progressively increase the ROM week to week.

WEEK 6	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LEGS (HYPERTROPHY FOCUS)	Hack Squat	N/A	2-4	1	10-12					N/A	~6	2-3 min	Leg Press	DB Walking Lunge	Use a controlled negative (don't free fall) and then explode on the positive.
	Seated Leg Curl	N/A	1-2	1	12-15					N/A	~7	1-2 min	Lying Leg Curl	Nordic Ham Curl	Lean forward over the machine to get a maximum stretch in your hamstrings.
	Walking Lunge	N/A	2-3	1	10-12					N/A	~6	2-3 min	Smith Machine Static Lunge	DB Static Lunge	Take medium strides. Minimize contribution from the back leg.
	Machine Hip Abduction	N/A	1-2	1	12-15					N/A	~7	1-2 min	Cable Hip Abduction	Lateral Band Walk	If possible, use pads to increase the range of motion on the machine. Lean forward and grab onto the machine rails to stretch the glutes further.
	Standing Calf Raise	N/A	1-2	1	12-15					N/A	~7	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
REST DAY															

WEEK 7	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
UPPER (STRENGTH FOCUS)	45° Incline DB Press	N/A	2-3	3	8-10					~7-8	~7-8	3-5 min	45° Incline Barbell Press	45° Incline Machine Press	1 second pause at the bottom of each rep while maintaining tension on the pecs
	Pec Deck	N/A	1-2	2	10-12					~7-8	~8-9	1-2 min	Cable Crossover Ladder	Bottom-Half DB Flye	Focus on bringing your elbows together - not your hands
	Dual-Handle Lat Pulldown	N/A	1-2	3	10-12					~7-8	~7-8	2-3 min	Wide-Grip Lat Pulldown	Wide-Grip Pull-Up	Lean back by ~15° and drive your elbows down as you squeeze your shoulder blades together. This should feel like a mix of lats and mid-traps.
	High-Cable Lateral Raise	Failure	1-2	2	10-12					~8-9	10	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	Smith Machine Row	N/A	1-2	2	8-10					~7-8	~7-8	2-3 min	Pendlay Deficit Row	Single-Arm DB Row	Focus on squeezing your shoulder blades together, keeping your elbows at a ~45° angle
	Overhead Cable Triceps Extension (Bar)	Failure	1	2	10-12					~8-9	10	1-2 min	Overhead Cable Triceps Extension (Rope)	DB Skull Crusher	Optionally pause for 0.5-1 second in the stretched aspect of each rep
	Bayesian Cable Curl	Failure	1	2	10-12					~8-9	10	1-2 min	Seated Super-Bayesian High Cable Curl	Incline DB Stretch Curl	If you have a left-right bicep size imbalance, do these 1 arm at a time, starting with the weaker arm. Take the weaker arm to the listed RPE. Then match the reps with the other arm (stop once you've matched the reps, even if the RPE is lower). If you don't have a size imbalance, do these both arms at the same time.

WEEK 7	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LOWER (STRENGTH FOCUS)	Lying Leg Curl	N/A	2	2	10-12					~7-8	~8-9	1-2 min	Seated Leg Curl	Nordic Ham Curl	Set the machine so that you get the biggest stretch possible at the bottom. Prevent your butt from popping up as you curl.
	Smith Machine Static Lunge w/ Elevated Front Foot	N/A	2-4	3	8-10					~7-8	~7-8	3-5 min	DB Bulgarian Split Squat	High-Bar Back Squat	Elevate your front foot on a small box. Minimize contribution from your back leg.
	45° Hyperextension	N/A	2-4	3	8-10					~7-8	~7-8	2-3 min	Glute-Ham Raise	Cable Pull-Through	Squeeze your glutes hard at the top of each rep. Slow controlled reps on the way down, followed by an explosive positive.
	Leg Extension	Failure	1-2	2	10-12					~8-9	10	1-2 min	Reverse Nordic	Sissy Squat	Set the seat back as far as it will go while still feeling comfortable. Grab the handles as hard as you can to pull your butt down into the seat. Use a 2-3 second negative. Feel your quads pulling apart on the negative.
	Leg Press Calf Press	Failure	1-2	2	8-10					~8-9	10	1-2 min	Seated Calf Raise	Standing Calf Raise	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
	Machine Crunch	Failure	1	2	10-12					~8-9	10	1-2 min	Decline Weighted Crunch	Cable Crunch	Round your lower back as you crunch. Maintain a mind-muscle connection with your 6-pack.
REST DAY

	45° Hyperextension	N/A	2-4	3	8-10					~7-8	~7-8	2-3 min	Glute-Ham Raise	Cable Pull-Through	Squeeze your glutes hard at the top of each rep. Slow controlled reps on the way down, followed by an explosive positive.
	Leg Extension	Failure	1-2	2	10-12					~8-9	10	1-2 min	Reverse Nordic	Sissy Squat	Set the seat back as far as it will go while still feeling comfortable. Grab the handles as hard as you can to pull your butt down into the seat. Use a 2-3 second negative. Feel your quads pulling apart on the negative.
	Leg Press Calf Press	Failure	1-2	2	8-10					~8-9	10	1-2 min	Seated Calf Raise	Standing Calf Raise	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
	Machine Crunch	Failure	1	2	10-12					~8-9	10	1-2 min	Decline Weighted Crunch	Cable Crunch	Round your lower back as you crunch. Maintain a mind-muscle connection with your 6-pack.
REST DAY															

WEEK 9	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PULL (HYPERTROPHY FOCUS)	Lean-Back Lat Pulldown	N/A	2-3	2	10-12					~7-8	~7-8	2-3 min	Lean-Back Machine Pulldown	Pull-Up	Initiate the pulldown with a straight up posture. As you pull the bar down, lean back by about 15-30° to get the mid-back more involved. Softly touch the bar to your chest on every rep and, even though you're leaning back, still control the weight!
	Chest-Supported T-Bar Row	Failure	2-3	3	10-12					~8-9	10	2-3 min	Chest-Supported Machine Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	Failure	1-2	2	12-15					~8-9	10	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Cable Paused Shrug-In	N/A	2-3	2	12-15					~7	~8-9	1-2 min	Machine Shrug	DB Shrug	Shrug up and in. Think about shrugging "up to your ears." 1-2 second pause in the squeeze (at the top) of each rep, then another 1-2 second pause in the stretch (at the bottom) of each rep.
	Cable Rope Hammer Curl	N/A	1	3	12-15					~7	~8-9	1-2 min	DB Hammer Curl	Hammer Preacher Curl	Squeeze the rope hard as you curl the weight up. Smooth, controlled reps.
	DB Concentration Curl	Failure	1	2	15-20					~8-9	10	1-2 min	Concentration Cable Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 9	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PUSH (HYPERTROPHY FOCUS)	Machine Chest Press	N/A	2-4	3	10-12					~7-8	~7-8	3-5 min	Barbell Bench Press	DB Bench Press	1 second pause at the bottom of each rep while maintaining tension on the pecs.
	Seated DB Shoulder Press	N/A	2-3	2	10-12					~7-8	~7-8	2-3 min	Cable Shoulder Press	Machine Shoulder Press	Ensure that your elbows break at least 90°. Mind-muscle connection with your delts. Smooth, controlled reps.
	Bottom-Half Seated Cable Flye	Failure	1-2	2	12-15					~8-9	10	1-2 min	Bottom-Half DB Flye	Low-to-High Cable Crossover	All reps and sets are to be performed in the bottom half of the ROM. Focus on feeling a deep stretch in your pecs at the bottom of each rep.
	High-Cable Lateral Raise	Failure	1	2	12-15					~8-9	10	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	EZ-Bar Skull Crusher	N/A	1	3	12-15					~7-8	~8-9	1-2 min	DB Skull Crusher	Katana Triceps Extension	Optionally pause for 0.5-1 second in the stretched aspect of each rep.
	Triceps Pressdown (Bar)	Failure	1	2	15-20					~8-9	10	1-2 min	Triceps Pressdown (Rope)	DB Triceps Kickback	Focus on squeezing your triceps to move the weight.
	Ab Wheel Rollout	Failure	1-2	2	12-15					~8-9	10	1-2 min	Swiss Ball Rollout	Long-Lever Plank	Don't just bend at your hips, use your abs to lower yourself down under control and pull yourself back up. If you don't have the core strength to get all the way extended at the bottom, try to progressively increase the ROM week to week.

Take the weaker arm to the listed RPE. Then match the reps with the other arm (stop once you've matched the reps, even if the RPE is lower). If you don't have a size imbalance, do these both arms at the same time.

WEEK 12	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LOWER (STRENGTH FOCUS)	Lying Leg Curl	N/A	2	2	10-12					~7-8	~8-9	1-2 min	Seated Leg Curl	Nordic Ham Curl	Set the machine so that you get the biggest stretch possible at the bottom. Prevent your butt from popping up as you curl.
	Smith Machine Static Lunge w/ Elevated Front Foot	N/A	2-4	3	8-10					~7-8	~7-8	3-5 min	DB Bulgarian Split Squat	High-Bar Back Squat	Elevate your front foot on a small box. Minimize contribution from your back leg.
	45° Hyperextension	N/A	2-4	3	8-10					~7-8	~7-8	2-3 min	Glute-Ham Raise	Cable Pull-Through	Squeeze your glutes hard at the top of each rep. Slow controlled reps on the way down, followed by an explosive positive.
	Leg Extension	Failure	1-2	2	10-12					~8-9	10	1-2 min	Reverse Nordic	Sissy Squat	Set the seat back as far as it will go while still feeling comfortable. Grab the handles as hard as you can to pull your butt down into the seat. Use a 2-3 second negative. Feel your quads pulling apart on the negative.
	Leg Press Calf Press	Failure	1-2	2	8-10					~8-9	10	1-2 min	Seated Calf Raise	Standing Calf Raise	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
	Machine Crunch	Failure	1	2	10-12					~8-9	10	1-2 min	Decline Weighted Crunch	Cable Crunch	Round your lower back as you crunch. Maintain a mind-muscle connection with your 6-pack.
REST DAY															

WEEK 12	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PULL (HYPERTROPHY FOCUS)	Lean-Back Lat Pulldown	N/A	2-3	2	10-12					~7-8	~7-8	2-3 min	Lean-Back Machine Pulldown	Pull-Up	Initiate the pulldown with a straight up posture. As you pull the bar down, lean back by about 15-30° to get the mid-back more involved. Softly touch the bar to your chest on every rep and, even though you're leaning back, still control the weight!
	Chest-Supported T-Bar Row	Failure	2-3	3	10-12					~8-9	10	2-3 min	Chest-Supported Machine Row	Incline Chest-Supported DB Row	Flare elbows out at roughly 45° and squeeze your shoulder blades together hard at the top of each rep.
	1-Arm 45° Cable Rear Delt Flye	Failure	1-2	2	12-15					~8-9	10	1-2 min	Rope Face Pull	Reverse Pec Deck	Pause for 1-2 seconds in the squeeze of each rep. Contract the rear delts hard!
	Cable Paused Shrug-In	N/A	2-3	2	12-15					~7	~8-9	1-2 min	Machine Shrug	DB Shrug	Shrug up and in. Think about shrugging "up to your ears." 1-2 second pause in the squeeze (at the top) of each rep, then another 1-2 second pause in the stretch (at the bottom) of each rep.
	Cable Rope Hammer Curl	N/A	1	3	12-15					~7	~8-9	1-2 min	DB Hammer Curl	Hammer Preacher Curl	Squeeze the rope hard as you curl the weight up. Smooth, controlled reps.
	DB Concentration Curl	Failure	1	2	15-20					~8-9	10	1-2 min	Concentration Cable Curl	DB Preacher Curl	Smooth, controlled reps. Mind-muscle connection with the biceps.

WEEK 12	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
PUSH (HYPERTROPHY FOCUS)	Machine Chest Press	N/A	2-4	3	10-12					~7-8	~7-8	3-5 min	Barbell Bench Press	DB Bench Press	1 second pause at the bottom of each rep while maintaining tension on the pecs.
	Seated DB Shoulder Press	N/A	2-3	2	10-12					~7-8	~7-8	2-3 min	Cable Shoulder Press	Machine Shoulder Press	Ensure that your elbows break at least 90°. Mind-muscle connection with your delts. Smooth, controlled reps.
	Bottom-Half Seated Cable Flye	Failure	1-2	2	12-15					~8-9	10	1-2 min	Bottom-Half DB Flye	Low-to-High Cable Crossover	All reps and sets are to be performed in the bottom half of the ROM. Focus on feeling a deep stretch in your pecs at the bottom of each rep.
	High-Cable Lateral Raise	Failure	1	2	12-15					~8-9	10	1-2 min	High-Cable Cuffed Lateral Raise	Lean-In DB Lateral Raise	Focus on squeezing your lateral delt to move the weight.
	EZ-Bar Skull Crusher	N/A	1	3	12-15					~7-8	~8-9	1-2 min	DB Skull Crusher	Katana Triceps Extension	Optionally pause for 0.5-1 second in the stretched aspect of each rep.
	Triceps Pressdown (Bar)	Failure	1	2	15-20					~8-9	10	1-2 min	Triceps Pressdown (Rope)	DB Triceps Kickback	Focus on squeezing your triceps to move the weight.
	Ab Wheel Rollout	Failure	1-2	2	12-15					~8-9	10	1-2 min	Swiss Ball Rollout	Long-Lever Plank	Don't just bend at your hips, use your abs to lower yourself down under control and pull yourself back up. If you don't have the core strength to get all the way extended at the bottom, try to progressively increase the ROM week to week.

WEEK 12	EXERCISE	LAST-SET INTENSITY TECHNIQUE	WARM-UP SETS	WORKING SETS	REPS	TRACKING LOAD AND REPS				EARLY SET RPE	LAST SET RPE	REST	SUBSTITUTION OPTION 1	SUBSTITUTION OPTION 2	NOTES
						SET 1	SET 2	SET 3	SET 4						
LEGS (HYPERTROPHY FOCUS)	Hack Squat	N/A	2-4	3	10-12					~7-8	~7-8	2-3 min	Leg Press	DB Walking Lunge	Use a controlled negative (don't free fall) and then explode on the positive.
	Seated Leg Curl	Failure	1-2	2	12-15					~8-9	10	1-2 min	Lying Leg Curl	Nordic Ham Curl	Lean forward over the machine to get a maximum stretch in your hamstrings.
	Walking Lunge	N/A	2-3	2	10-12					~7-8	~7-8	2-3 min	Smith Machine Static Lunge	DB Static Lunge	Take medium strides. Minimize contribution from the back leg.
	Machine Hip Abduction	Failure	1-2	2	12-15					~8-9	10	1-2 min	Cable Hip Abduction	Lateral Band Walk	If possible, use pads to increase the range of motion on the machine. Lean forward and grab onto the machine rails to stretch the glutes further.
	Standing Calf Raise	Failure	1-2	3	12-15					~8-9	10	1-2 min	Seated Calf Raise	Leg Press Calf Press	1-2 second pause at the bottom of each rep. Instead of just going up onto your toes, think about rolling your ankle back and forth on the balls of your feet.
